# CORONAVIRUS PROTECTION SCREENS & WALLS

FLEXIFRAME SERIES 3

Here is the third series of unique Flexiframe protective screen products. All fitted with 1mm thick see-through PVC foils that create a high quality safety barrier in situations where people come together and face-to-face meetings are necessary. All our products are manufactured in-house in our factory in Sweden and normally available for immediate despatch.

FLEXIFRAME SCREEN WALLS - *LinkUp*

The Flexiframe screen walls are ideal to place in restaurants, offices, beauty salons, hairdressers etc. Frames are in size 70x100 cm and in both landscape and portrait format. Bottom row/frames are equipped with 5 mm foam centred boards and the top row/frames are equipped with transparent protective foils which can easily be cleaned with disinfectant.
